

9601

9601 : MEDIUM DUTY MAIN BATTERY DISCONNECT SWITCH. ON / OFF

For use with 12, 24 & 32 Volt Marine Electrical systems.
Capacity : 250 Amps continuous, 360 Amps Intermittent

8501 & 8503

8501 : BATTERY SELECTOR SWITCH

Medium Duty. Size : 5-1/4" x 2-5/8"

For use with 12, 24 & 32 Volt Marine Electrical Systems. Capacity 250Amps Continuous, 360 Amps Intermittent.

8503 : BATTERY SELECTOR SWITCH

With Alternator Field Disconnect.

Medium Duty. Size : 5-1/4" x 2-5/8"

For use with 12, 24 & 32 Volt Marine Electrical Systems. Capacity 250Amps Continuous, 360 Amps Intermittent.

10086

10086 : BATTERY SWITCH

This New Battery switch is good for various thickness of panel (upto 16mm), 2 Position (On / Off) Rating: 280A continuous at 12V, 450A Intermittent with removable key. Silver plated copper stud, size : 3/8", Surface mount or Flush mount.

10192

10192 MINI BATTERY SWITCH WITH KNOB

Rating: 250A Continuous at 12V, 400A Intermittent at 12V. PC & Nylon and Non-Corrosive Marine grade Metals. 2-5/8" Square x 3-1/4" Height, 3 Position surface Mount or Flush Mount

10008

10008 : BATTERY SWITCH

Rated 350A Continuous Duty at 12V, 600A Intermittent. Luminous Label. Surface Mount or Flush Mount. Made of PC With A Microswitch Vapor tight, 5" x 5" x 3-3/8" H.

10006-YW

10006-YW : BATTERY SWITCH

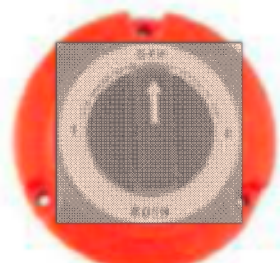

Plastic housing. Yellow colour W/Locker & Keys. Type : 2/All/1/Off Rated for 250A continuous / 375A Intermittent at upto 32V.

10007

10007 : BATTERY SWITCH

Plastic housing. Red colour, Type : 2 / All / 1 / Off. Rated for 250A continuous / 375A Intermittent at upto 32V.

10009

10009 : BATTERY SWITCH

Plastic Housing. Red colour, Type : On / Off. Size : 5" Dia. x 2" H. Rated for 300A continuous / 400A Intermittent at upto 32V.
