12 x 34 x 5.6..... Figures in the description column

| | | show the dimensions of parts.

ID OD T(or W,L)

→12345-56781 (Parts No.) : indicates that the parts number was changed to 12345-56781 and the new parts are interchangeable with the former ones but the former ones are not interchangeable with new ones.

←12345-56781 (Parts No.) : indicates that the former and new parts are interchangeable with each other and both are usable.

3. INNER PARTS OF ASSEMBLY

Part name with a dot (.) in front as shown in the description column indicates the component of the assembly also available individually.

4. MODIFICATION NOTICE

A parts bulletin will be sent to you on all occasions when changes in parts occur, including interchangeable modifications between new parts and old ones.

5. NOTE

5-1. There are some different parts from those of production models among spare parts for the administrative reasons and common use of them with other models.

5-2. In respect of rubber hoses and vinyl tubes, please be sure to use them by cutting off according to the length mentioned on parts catalogue or what is actually required on the vehicle.

5-3. Note that the drawings on the illustration page are for ready reference of spare parts number, not to be used as an assembly manual. When assembling, use "SUZUKI SERVICE MANUAL".

This technical drawing is an exploded view of a mechanical assembly, likely a vehicle's parking brake or a similar control mechanism. The central component is a large, cast metal housing (1) with a cylindrical bore. A long, thin rod (17) is shown inserted into this bore, secured by a nut (5) and a washer (2). A lever arm (6) is attached to the top of the rod, pivoted on a pin (7). A cylindrical sleeve (15) is shown both above and below the housing. To the right, a complex linkage mechanism is shown, including a lever (28) with a pin (26), a spring (27), and various bushings and pins (19, 22, 23, 24, 21, 25, 18, 20). At the bottom, a series of stacked components (9, 10, 13, 14, 15) form a vertical support or guide. A separate lever assembly (29) is shown at the bottom left. The diagram uses standard mechanical symbols for threads, pins, and springs.
